Ventura's Off Shore Café
2015 Shore Rd
Northfield, NJ 08225

Dear Ventura's Café:

Hi my name is Sam, and I am a student at Eugene A. Tighe School in Margate, NJ. For Language Arts class, we were asked to right a persuasive essay about our favorite restaurant. I chose your restaurant as "The Best Restaurant in Town." I hope you enjoy my essay as much as I enjoy your food.

Sincerely

A handwritten signature in black ink that reads "Sam A." with a period at the end. The letters are cursive and somewhat stylized.

Start Your Car for The Adventure of A Lifetime

Do you like satisfying food, full stomachs, and spectacular atmosphere? Well I do, and Ventura's has these things! The atmosphere and meals are exquisite. The best thing here though is the waiters actually talk to you and don't rush you a long. If you like what I said, than read on!

My favorite thing about Ventura's, without a doubt, is their incredible food. When you walk to the fluffy booths, or the cozy big chairs, you wait less than five minutes to be asked what to drink. Soon after that, we get asked what we want for appetizers. Our mom always orders the pizza sticks and mozzarella sticks. The pizza sticks are a bucket of delicious, mouth watering pizza sticks. The mozzarella sticks are a square cheese filled delicate delight. They douse the whole pan in sauce and if you don't like it with sauce than it doesn't matter. When you take the mozzarella sticks off there is barely any sauce on it. My mom loves the salad and she always puts ranch dressing on it. She orders the hot soup and wants to rip it away from the waiter when she smells it. Any time my dad goes, he always orders flounder francais. When my brother sees's the enormous eggplant parmesan, one glance and his belly felt full. Like my brother, my sister Elana loves the eggplant parmesan. The thing I love most is the succulent, cheesy, crunchy, grilled cheese. When I see it, I want to swallow the dish whole.

Beside the delicious food choices, I absolutely love the waiters' liveliness. If you're at any restaurant you usually have to with ten minutes before being served, but here you wait less than five minutes before being served by a waiter. They will talk and communicate with you when you are waiting for your meal. If you have a noisy and rude, family they will wait until it is quiet and serve you, but will still come and wait. They never become impatient; at least they don't show it.

If you're not running to Ventura's yet, than start your car because the atmosphere is soothing and relaxing. When you're seated at a booth, you get calming and soothing threw your ears. You might hear other people, but you can block them out easily. Anytime you get seated at a table with the chairs, they have lovely music just waiting for you. The sound is so relaxing; you want to just sleep there. Usually, you sit at a booth for bigger space, birthdays, and also family and friends with you.
