

Ventura's Offshore Café Allergen List												
Caution: Some food items may change therefore be sure we are aware of your food allergy.												
*SESAME SEEDS ARE USED IN SEVERAL MENU ITEMS THEREFORE CROSS CONTAMINATION CAN OCCUR. Please make us aware if you are allergic												
This information is to be a guide to assist our guests with better informed food choices. Ventura's Offshore Café has received this allergen information from our approved manufacturers and does not guarantee its accuracy other than as complied.												
<b>FRIED FOODS:</b> In the preparation of fried items, individual products are not placed into separate fryers so there is a potential of cross contamination of our fried items, therefore all our fried items will have an (*) next to them.												
* The soybean oil used in our food items is a highly refined oil unless otherwise specified. Highly refined soybean does not demonstrate a significant hazard to allergic individuals and therefore it is not listed as an allergen. This is confirmed by the FDA and USDA in their allergen specifications.												
The allergen chart only lists those products in which soy is stated on the manufactures allergen statement.												
Frying Oil: Soy Bean												
*Most menu items may be prepared with our blended oil which contains soy
